

TEXT MESSAGING

We have recently installed a new clinical computer system which facilitates the communication with patients via text messaging. Texts could include appointment reminders, blood test results, a request for you to make an appointment and reminders for specific clinics e.g flu.

In order to for us to utilise this service, we require your mobile telephone number and your permission for us to communicate with you in this way. If you would like to receive text messages, please complete this form and return it to the Practice.

We look forward to keeping you up to date via text so it is imperative that if you change your mobile number that you let us know.
